Dear Bruce David Cooke Sr.,

Location:

County of San Bernardino Department of Behavioral Health, An obvious county government holding -- the relationship and it's responsibilities to uphold the law between you there and this citizen here [James Martin Driskill]

Just confirming that we had a voice call conversation earlier today. At this time, I have no needs to disclose the topics discussed in that call -- except that you are under a legal obligation here sir, a FIDUCIARY RESPONSIBILITY and what has happened that made me engage in a call earlier to you, which was transferred into your handing the call.... was to complain about the FACEBOOK interface that moments earlier BLOCKED my COMMUNICATIONS and ACCESS to that social media interface -- ILLEGALLY and MORE IMPORTANTLY --- I DEMAND IT BE RESTORED so that I CAN CONTINUE TO EXPRESS THE NEEDS I HAVE WITH THE COUNTY INVOLVEMENTS -- To Include San Bernardino County District Attorney's Office and Their Public Affairs Director, Mike 'iSocialCop' Bires.

I do believe that it was only coincidence that Mike Bires called me about an hour or so later -- but something progressive has been

understood and being handled --- expected task for that to be the proper interface and exchange the the the San Bernardino Police Department --- which has also been compromised to be violating my First Amendment Rights.

It is a NO NO NO SIR NO SIR -- You can't block social media sir --- you do not have the legal justification to block my actions -- unless sir I was making VIOLENT INTENTION STATEMENTS called 'FIGHTING WORDS' for which there are none here with you, none here with your admin/moderator with FACEBOOK, or anyone else for that matter! Mr. Bruce David Cooke, Most of the statements I have needed to use digital media to share with you has been done on Facebook in Facebook Messenger. It looks like you have no access to your page for a couple of years. I need you to access the truth record started there. Thank you, Sir.

Counselors

Who is a Counselor?

A Counselor is a health service provider who is trained and educated in the performance of behavior health services through interpersonal communications and analysis. Training and education at the specialty level usually requires a master's degree and clinical experience and supervision for licensure or certification.

Types of Counselors

Apart from the General Practice Counselors, there are counselors which cater to specific category. These categories are Addiction (Substance Use Disorder), Mental Health, Pastoral, Professional, and School.

What is a NPI Number? : The National Provider Identifier (NPI) is a unique identification number for covered health care providers. The NPI is a 10-position, intelligence-free numeric identifier (10-digit number). This means that the numbers do not carry other information about healthcare providers, such as the state in which they live or their medical specialty. The NPI must be used in lieu of legacy provider identifiers in the HIPAA standards transactions. Covered health care providers and all health plans and health care clearinghouses must use the NPIs in the administrative and financial transactions adopted under HIPAA (Health Insurance Portability and Accountability Act).

Where NPI should be used? : The NPI must be used in place of legacy provider identifiers, such as a Unique Provider Identification Number (UPIN), Online Survey Certification & Reporting (OSCAR) and National Supplier Clearinghouse (NSC) in HIPAA standard transactions. There are two categories of health care providers for NPI enumeration purposes. Entity Type 1 providers are individual providers who render health care (e.g., physicians, dentists, nurses). Sole proprietors and sole proprietorships are Entity Type 1 (Individual) providers. Organization health care providers (e.g., hospitals, home health agencies, ambulance companies) are considered Entity Type 2 (Organization) providers.

Who must obtain NPI? : All health care providers who are HIPAA-covered entities, whether they are individuals (e.g., physicians, nurses, dentists, chiropractors, physical therapists, or pharmacists) or organizations (e.g., hospitals, home health agencies, clinics, nursing homes, residential treatment centers, laboratories, ambulance companies, group practices, Health Maintenance Organizations [HMOs], suppliers of durable medical equipment, pharmacies) must obtain an NPI. The NPI will be used by HIPAA-covered entities (e.g., health plans, health care clearinghouses, and certain health care providers) to identify health care providers in HIPAA standard transactions. A covered health care provider, under HIPAA, is any health care provider who transmits health information in electronic form in connection with a transaction for which the Secretary of Health and Human Services has adopted a standard, even if the health care provider uses a business associate to do so.
